LONG ISLAND TRANSGENDER DAY OF REMEMBRANCE

The Transgender Day of Remembrance was set aside to memorialize those who were killed because of anti-transgender hatred or prejudice. The event is held in November to honor Rita Hester, whose murder Nov. 28 1998, like most anti-transgender murder cases — has yet to be solved. On Nov. 22, 2009, community members will participate in Long Island's Transgender Day of Remembrance in memory of those affected by hate crimes.
